

Fresno, California • February 5-6, 2010

## Course Summary

Listening plays a vital role in the sensory integration process. In fact, some believe that the auditory system is the 'missing link' in sensory integration modalities. Both research\* and clinical experience have shown that using sound-based interventions for clients with sensory processing difficulties can increase treatment effectiveness.

In this two-day workshop, you will learn to use Therapeutic Listening® Modulated CDs to create individualized, home-based programs for clients. You will also learn how to implement Therapeutic Listening strategies in conjunction with postural, respiratory, and sensory activities. The course will take you through all of the steps--from assessment to outcomes--for creating complete Therapeutic Listening programs. Video case presentations will be used to illustrate points and show changes in individuals with listening and other sensory processing difficulties.

This workshop will be especially meaningful for practitioners who have a background in sensory integration, including therapists in schools, hospitals, and private clinics. This course provides 12 contact hours or 1.2 AOTA CEUs, and provides participants with the necessary background information to begin using Therapeutic Listening right away. Specialized headphones and CDs are necessary and are available for purchase upon completing the course.

## Who Can Benefit From Therapeutic Listening?

Therapeutic Listening, coupled with sensory integrative treatment, tends to speed the emergence of:

- Attention
- Organized behavior
- Self regulation
- Postural control
- Bilateral coordination
- Praxis
- Fine motor control
- Oral motor/articulation
- Social skills/communication
- Visual motor integration

*"The results you said you were getting at the Listening With the Whole Body workshop seemed incredible, but I am getting close to 100% success rate with using this in speeding up goal attainment. And yes, it works for toilet training! I've been in practice since 1987, and this is just about the easiest to administer and most effective tool for sensory integration-based disorders I have used to date! Thank you for improving the lives of countless children and families!" --Margaret Fischer, OT*

## Course Objectives

Upon completion, participants will be able to:

- Describe the relationship between listening and sensory integration.
- Identify individuals with sensory processing and listening difficulties who may respond well to Therapeutic Listening.
- Create Therapeutic Listening programs that are adapted to meet specific needs of individual clients.
- Demonstrate understanding of the role of postural, respiratory, and sensory strategies that are part of the Therapeutic Listening program.

## Instructor

Lindy Joffe, MS, OTR completed her Master's degree in Occupational Therapy in 1999. She has worked continuously since that time, practicing in hospital and community-based settings. She has worked with a range of ages, practicing in early intervention and up through adolescence. Lindy is trained in DIR/Floortime methods, Therapeutic Listening, and the Perceptual Enrichment Program. She has a particular interest in how children come to understand their worlds through both sensory and cognitive-perceptual channels. Lindy is co-owner of Kidspace Therapy in San Francisco, California.

# Therapeutic Listening®

*Listening With the Whole Body*

Fresno, California • February 5-6, 2010

### February 5

- 8:00 Check-in begins
- 8:30 What is listening?
- 10:00 Break
- 10:15 What is Therapeutic Listening®?
- 11:00 Listening as a sensory integration process
- 12:00 Lunch (on your own) / Listening lab
- 1:15 Using sound as a tool
- 2:15 Understanding the elements of music as clinical tools
- 3:00 Break
- 3:15 CD descriptions & clinical use of Therapeutic Listening CDs
- 4:30 End

### February 6

- 8:30 Programming with Therapeutic Listening®
- 9:30 Anatomical structures and neurological considerations
- 10:30 Break
- 10:45 Anatomy and neurology (continued)
- 12:00 Lunch (on your own) / Listening lab
- 1:15 Core activation and development
- 2:00 Assessment tools
- 3:00 Break
- 3:15 Clinical case studies, problem solving, questions
- 4:30 End

#### Register Today!

- ONLINE at [www.vitallinks.net](http://www.vitallinks.net)
- PHONE 608-270-5424
- TOLL-FREE FAX 866-636-9720
- MAIL this form and payment to:  
Vital Links  
6613 Seybold Road, Ste E  
Madison, WI 53719

#### Registration Fee:

- Add \$15 processing fee for purchase order without payment
- \$435 early bird price if postmarked by January 6, 2010
- \$460 regular price if postmarked January 7, 2010 or after
- \$285 reduced price for repeat attendees

For groups of 3 or more registering simultaneously, each participant may take an additional discount of \$25.

Registration fee includes *Listening With the Whole Body: Clinical Concepts and Treatment Guidelines for Therapeutic Listening* (\$79 value).
